Leading Edge, Hungary

WWW.LEADEDGE.ORG

Dear gracious Heavenly Father, I pray for Hungary and the Hungarian people...

I pray that first and foremost, you would bless this nation spiritually. Please do a miracle in the lives of these people and open more Hungarians' hearts and minds to accept Jesus as their personal Lord and Savior. Holy Spirit, give people the desire to know you deeply and to desire holiness, righteousness and truth. Please change the Hungarian people's mindset of the future and pull them out of their pessimism and depression and replace it with a hope and joy and deep peace about a future rooted in you. Please transform this nation to live lives of true, committed discipleship where they aren't afraid to lay down their dreams for the treasure you offer in eternity.

Thank you so much for calling me here and for giving me a love for this nation and for this city in particular. Thank you for allowing

me to learn the language as a kid and be a part of the culture like an insider. Thank you for giving so many amazing opportunities for your gospel to be heard among the leaders of this country.

Please use me to reach the leaders in a more and more effective way. Through my coaching, please allow leaders to hear Biblical truth and use me to implant values into their thinking and business strategies. Continue to open more avenues for me to meet a variety of leaders from business and political avenues and have a positive impact on their lives for Christ. May every coaching time that I plan put Jesus in the focus and introduce people to their Lord and Savior. Please open avenues to explicitly share the gospel and have a spiritual as well as a social impact on these leaders' personalities and character. May the values that I am teaching cause integrity and honesty and selflessness to become natural parts of every day personal life as well as become integrated into business settings so that through tangible actions and visible attitudes their communities would be effected in soul changing ways.

Along with giving more opportunities for evangelical conversations, please bless my discipleship of current Christian leaders. I pray that you would grow Eni up into a faithful, joyful, dependent disciple whose commitment to you will never waiver. Grow our Bible study as well so that more and more Hungarians would desire to lead with zeal and passion and stand up for their faith.

Thank you for the privilege of being here and being used by you, Father. Thank you for the talent and potential here in this country. Bless the Hungarian leaders greatly so that every area of society would be effected by your love and grace and truth.

Amen

Prayer requests

* Please continue to pray for JDB Life Inc. I am working on my website and marketing strategies. I am signing the final papers on Monday to complete the legal process. Praise God that so far it has been smooth and seems like everything is in its place. Please continue to pray for legal protection and much wisdom and insight into all this new territory brings.

* Praise God, I have 3 new coaching clients, which means 3 new people to go deep with and talk to about values, and beliefs with! Please be praying for me as I enter into coaching them and trying to give to them personally. Pray that I would be a bold yet diplomatic witness for Christ and be able to put the gospel in the center of all our conversations.
